

Revised April 16, 2020

Emergency Situations

- **Behavioral Codes (including Restraint and Seclusion) OR Cardiopulmonary Respiration (CPR)**
- **Emergency Cart**

To protect patients and colleagues during restraint and seclusion OR CPR, staff should wear the following:

Behavioral Code/Restraint/Seclusion: Surgical mask, gloves, and eye protection (face shields/goggles)

Cardiopulmonary Respiration: N95 mask (or surgical mask if not available), face shield, gloves and gown

All staff working in a suspected or confirmed COVID-19 unit should wear appropriate PPE (including N95 or surgical masks if not available) when engaged in the procedures described above

Emergency cart should include PPEs such as facemasks (N95 and surgical), face shields, gowns and gloves
